

Encapsulating Carpet Spotter

Environmentally Responsible

Encapsulating Carpet Spotter is an ideal, all-purpose spotter that breaks down a wide range of spots and stains. Used in the same manner as a traditional spotter, but does not contribute to re-appearing spots. Remove the spot one time and forget it!

Key Benefits of Encapsulating Spotter

- Leaves no harmful residue
- No rinsing required
- Prevents soil wicking
- Eliminates rapid resoiling
- No sticky residue
- Carpets stay cleaner longer

Traditional detergents leave behind sticky residues that lead to rapid resoiling. Structured By Nature encapsulating detergent dries into a hard crystalline material that fractures off the carpet fiber during the dry vacuuming process. An important benefit of encapsulation is that any residue left behind is of a non-sticky nature, and consequently does not result in rapid resoiling.

Polymer attaching to the fiber

Encapsulating All-Purpose Spotter

The perfect multi-purpose spotter

Economical - Dramatic labor and chemical savings realized by the customer.

Versatile - Can be used with the latest low moisture equipment and also compatible with traditional carpet cleaning equipment.

Chemical program enhanced by the Certified Pile Brush. Nothing is more effective at removing dry soil. Plus the environmental benefits of no solution or recovery tanks to service.

Encapsulating All-Purpose Spotter

Quarts 12/case

32SBNRTUSP

DIRECTIONS: Shake well before using. Test fabric in inconspicuous place for color fastness before using.

1. Wet with plain water.
2. Liberally apply All-Purpose Spotter to affected area.
3. Work spotter into carpet pile and blot with a clean white towel.
4. Rinse with clean water, and blot with a clean white towel.
5. Repeat if necessary.
6. Vacuum when completely dry.

NOTE: Freezing will not affect cleaning power. Thaw, shake well and use.

Seeing is Believing! The Difference is Crystal Clear

When using Encapsulating Cleaners, The Secret Is In The Savings...

By switching to encapsulating cleaners you can reduce cleaning frequency and labor costs by up to 50% without sacrificing cleanliness!

Self-Contained Extraction Procedure

Production Rate = 2,000 sq. ft/hr

Spin Bonnet Procedure

Production Rate = 1,100 sq. ft/hr

Yearly carpet maintenance cost estimate

- 55,000 sq. feet of carpet
- Labor calculated at \$10.00 per hour

Our Structured By Nature Line is made up of 6 great products

EXTRACTION Cleaner

A concentrated cleaner that can be used with any type of carpet extraction equipment. Provides one pass cleaning, and is compatible with high heat equipment. Leaves no sticky residue behind.

2 oz. per gal.
128SBNEXT

Diluted pH 7.5-8.5

SHAMPOO/SPIN Cleaner

A quick drying Shampoo/Spin cleaner which incorporates Encapsulating technology to bind the soil, which is then removed through daily vacuuming.

16 oz. per gal.
128SBNSHP

Diluted pH 7.5-8

PRE-SPRAY Treatment

A perfect pre-spray for heavily soiled traffic areas. Breaks down tough grease and dirt. For high powered cleaning, use in conjunction with Certified's Extraction Cleaner.

8 oz. per gal.
128SBNSPT

Diluted pH 8-9

Encap PLUS

EncapPLUS powered by OXY-Force® is an ALL-IN-ONE cleaner and boosting agent. This oxygenated encapsulating, multi-purpose cleaner, is ideal for locations that need only one product to do it all.

Multi Dilution
128SBNOXY

Diluted pH 6.5-7

AFTER RINSE

Encapsulating fabric rinse for carpet and upholstery. This low pH solution is used as the final step in wet cleaning. After Rinse removes any remaining residue, helps prevent browning or yellowing and leaves the fabric with a soft feel and helps prevent rapid resoiling.

4-6 oz. per gal.
C282-005

Diluted pH 2.5-3
