

PRECISION® NITRILE POWDER FREE EXAMINATION GLOVES

Precision® Nitrile Powder Free Exam Gloves are unique in a sense that they are ultra soft and super stretchy resulted from a low modulus formulation that reduces hand fatigue for maximum comfort. They are 100% synthetic and latex free, this eliminates potential allergic reactions to latex protein.

The textured surface provides strong grip in both dry and wet applications. Precision® Nitrile Gloves are made on the thinner side for a disposable glove for maximum dexterity, yet, it is very strong to provide superior puncture and tear resistance and an overall excellent barrier protection.

The Precision® glove was evaluated by the independent consultants engaged by the Dental Advisor (TDA), and after thousands of uses in their daily practices, the Precision glove received a 91% clinical rating, + + + +½ (Excellent) out of the best 5 +’s scale.

Key Features

- Latex free
- Textured fingertips
- Ultra soft, super flexible
- Provides max comfort, reduces hand fatigue
- Great dexterity
- Non-sterile, Beaded cuff

Standard

Meets ASTM D6319
Meets FDA CFR Title 21 Indirect Food
Additive Regulations Part 174-178

Thickness: 4 mil | Length: 9"

Applications

- Cosmetology
- Dental
- Healthcare
- Industrial / Manufacturing
- Janitorial / Cleaning
- Laboratory
- Tattoo / Piercing / PMU
- Veterinary
